

G r o w i n g K i d s

We have a special garden
filled with children young and old.
It's a blend of many colors
soft & pale to bright & bold.

From the biggest strongest stalk
to the weakest tiny seed,
We provide our treasured garden
with every earthly need.

We tend this garden daily
and nurture every sprout.
We protect it from invaders
keeping all the bad stuff out.

We shower all its buds
with our tender loving care
So the garden blossoms fully
and the landscape's not so bare.

See we **GROW** kids at our place
underneath the Texas sun.
We're proud pediatric gardeners
and our blooms are number one!
