

Hats Off to You

The ambulatory nurse wears many hats each day.
It's a diverse collection, an incredible array.

A clinician, a collaborator, a coordinator of care
A teacher, a mentor and a counselor *extraordinaire*

A case manager, a researcher, an advocate for all
A coach, a leader and of course the guru to call

A navigator, a hunter, an inspector on the go
A communicator, a liaison and a peacekeeper, you know

A magician, a problem solver and a lion-tamer, most definitely
All of these different hats for no extra fee

Now take all these hats and juggle them high in the air
That's the life of the ambulatory nurse & the hats that (s)he'll wear

So in honor of Nurses week and for all that you do
I'd like to say keep up the great jobs and hats off to you!

Gwen Spector RN 05/02/09
