

## HERE'S TO YOU

Here's a tribute-- to all of you  
who put so much into what you do.  
For playing such a vital role  
and giving all your heart and soul.  
For being there in times of need  
to care, to comfort and to heed.  
For touching lives by helping heal  
and remaining very warm and real.  
For working long hours, day and night  
and standing up for each unspoken right.  
For becoming the light that guides the way  
into a better tomorrow than today.  
For easing the passage of life and death  
from the first sweet cry to the last precious  
breath.

Yes this is a tribute--for all of you  
who take such pride in what you do.  
For reaching out your hands so far,  
Here's to you and to how special you are!
