

Oncology Navigators assist patients on their cancer journey

- ↑ Provide individual **support** and remain a **central** point of contact for patients & families as they travel along the **continuum**, easing the **burden** of the journey and improving outcomes.
- ↑ **Guide** patients through their journey so they get on the **correct** pathway and **stay** on course.
- ↑ Identify and remove **barriers** that block progression and prevent **timely** access to needed services.
- ↑ Fill in **gaps** to prevent patients from **falling** through the cracks, ensuring **seamless** care.
- ↑ Help patients **bridge** and **connect** to **community** resources.
- ↑ **Educate** patients about their journey, how to read the signs and how to **maneuver** the curves and rough patches.
